2. FURTHER ACTION

If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

3. For further details, see notes to Form PCT/ISA/220.

WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/JP2005/001314

Box No. I Basis of the opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

This opinion has been established on the basis of a translation from the original language into the following language \_\_\_\_\_, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).

2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:

a. type of material

- a sequence listing  
 table(s) related to the sequence listing

b. format of material

- in written format  
 in computer readable form

c. time of filing/furnishing

- contained in the international application as filed.  
 filed together with the international application in computer readable form.  
 furnished subsequently to this Authority for the purposes of search.

3.  In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

**[Claim 1]**

The subject matter of claim 1 does not appear to be novel with respect to D1 cited in the ISR.

D1 discloses a fuel cell unit comprising at least one structural member which is comprising two electrolyte/electrode bonded members, a conductive porous substrate disposed between the two electrolyte/electrode bonded members, and two electrical connection means.

One electrical connection mean is connected to the conductive porous substrate and two electrodes10, and the other one is connecting two electrodes11.

**[Claim 5]**

The subject matter of claim 5 does not appear to involve an inventive step in view of D1 and D2 cited in the ISR.

D2 discloses an insulating support member which is disposed on the electrolyte/electrode bonded member.

**[Claim 6]**

The subject matter of claim 6 does not appear to involve an inventive step in view of D1 and D3 cited in the ISR..

D3 discloses a sealing material which is disposed on the electrolyte/electrode bonded member.

**[Claims 2-4, 7-9]**

The subject matters of claims 2-4, 7-9 are neither disclosed in any of the documents cited in the ISR nor obvious to a person skilled in the art.
